## **SKILLSOFT CODECADEMY AND TECHNOLOGY SKILLS**

Real tech skills need real practice. Build in-demand skills in AI, data, coding, cybersecurity, and more.

## REAL TECH SKILLS. REAL RESULTS.

## ZERO ROLLOUT STRESS.

It's hard to find hands-on, trusted training that actually builds specialist IT and developer capability – and even harder to launch it quickly.

Skillsoft Codecademy and Technology Skills is an interactive, enterprise-grade platform designed to upskill teams in high-demand technical areas. It offers self-paced learning in programming, data science, cloud computing, cybersecurity, and more, enabling organisations to bridge the tech skills gap effectively.

Get guided, practical learning from day one!

## Stay on top of team progress without needing a full L&D system

### Progress tracking and learner reporting

Quickly see which employees are engaging with their learning paths, where they are spending time, and how far they've progressed.

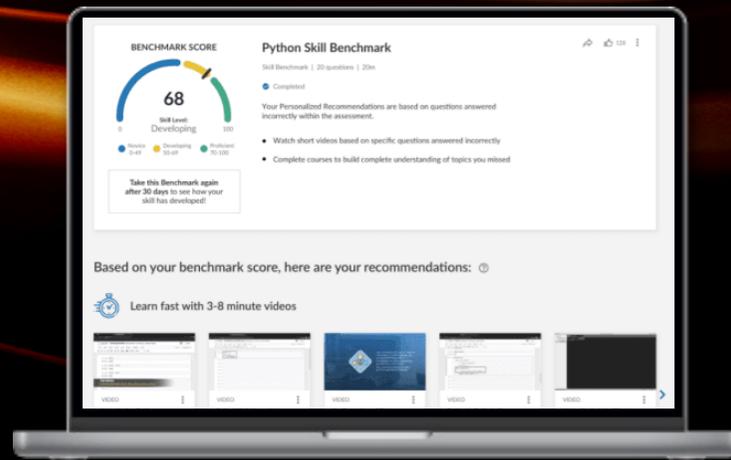

### Skill-path tracking

Get visibility into where each team member is on their coding journey, whether they're just starting with Python or deepening their expertise in data analysis or web development.

### Completion rates and engagement metrics

See who's completing courses, where learners may be dropping off, and which topics are gaining the most traction across your team.

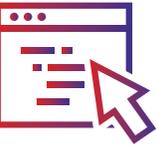

Measure the skills that matter, when they matter. Get clear insights into your team's strengths, spot gaps and match the right people to the right projects. Skill Benchmarks provide scores, proficiency levels and personalised learning recommendations to close any gaps, fast!

## Hands-on tech training that fits your business, and your budget.
